Some of our Custom Manufactured LAB Equipments

Customized Laboratory Equipment's

K-TAG is involved into Manufacturing of fully Customized Laboratory Equipment's as per Clients Specifications and Space availability,

Space is a costly affair, and thus Standard sizes of equipment's creates a challenge to clients to fit into their labs,

K-TAG has a unique feature of Designing, Engineering & Manufacturing Lab Equipment's as per the space availability thus increasing the usable area in the Lab, by maintaining the required Working chamber capacities,
